

NEET engagement strategies

Succes experiences of NEET's engagement and how can be replicated

Presentation of a NEET's engagement

Presentation of the NEET (fictitious name:M.)

Mode of engagement

Net of service and proposal activities

Strength and weaknesses

Successful strategies

Self-determination and empowerment

Presentation of the NEET Marco

19 years old

No formal diagnosis

Art high school

Artistic family

Introvert

Social isolation

M.

Beginning of
social isolation
at the end of
high school

M. enrolls in a
university art
course

Strong
relationship
difficulties with
peers

Over the course of a few months, m.
is no longer able to participate
at the lessons and isolates from the
circle of friends

Mode of engagement

M. arrived at the psychiatry service with parents and a psychotic disorder were diagnosed from the visit

Mistrust and difficulty in approaching the service

Initial proposal to access at the psychiatric daily center to participate in therapeutic-rehabilitative activities and to let us know M. better

Intervention that allowed us to get to know M., but a marked social isolation remained

Mode of engagement

- ▶ Proposal for inclusion in the therapeutic-rehabilitative facilities and engagement at the local mental health service
- ▶ Participation in the proposed activities
- ▶ Reorganization of the daily routine
- ▶ Interviews with educators and psychiatrists
- ▶ Controlled self-assumption of medications
- ▶ Self-empowerment construction and care agreement

Successfull strategies

- ▶ Develop Empowerment Together
- ▶ Supervised training internship in typography
- ▶ House supported unity
- ▶ Co-organization of service and therapeutic plane
- ▶ Co-production of a strong network of services and people around him
- ▶ Exhibitions with his paintings in various community centers in the are area
- ▶ Reconstruction of the will to socialize with awareness

Final consideration

- ▶ Value and strengthen self-determination
- ▶ Create a net of support for the NEET and the family
- ▶ Build the treatment plan together
- ▶ Value the personal skills of the NEET
- ▶ Personalize the interventions and services offered

Thank you all,
Massimo Pellegrini.
